ATLAS V
400 Series

Instruction Manual

Part 2
There are 3 sizes for the 4 meter Payload Fairings on the 400 Series:

- Large Payload Fairing (LPF)
- Extended Payload Fairing (EPF)
- Extended EPF (XEPF)

From left to right, all the 3 sizes are shown.
Align the seamlines to assemble the payload fairing.
Align the seamlines
Align the seamlines
Align black line marker with the rocket's seamlne
If aligned properly, then all the upper logos and flag should align with the 2 thin lines shown with the arrow.
Building the Solid Rocket Boosters (SRBs)
